

Honour the memory of comrade Bernadette!

It is with the greatest sorrow that the heart of an Internationalist, comrade Bernadette, stopped and International Communist Current has lost one of its members. Silence of an Internationalist that fought against the barbarity of capitalism, is not only a loss for the International Communist Current, but also for the working class, the left communist and all internationalists.

Comrade Bernadette: definitely you would agreed with us that persisting to the proletarian principles that you believed and struggling with the barbarity of the capitalist society that you fought, could be the best tribute's memory of your dearest remembrance.

We would like to express our solidarity to all Bernadette's comrades, family and friends and our determination to carry on with the revolutionary work she believed in so passionately.
